

NUFFIELD HEALTH TEES HOSPITAL IN APPEAL TO PEOPLE SUFFERING FROM JOINT PAIN

Serving patients from across Stockton-on-Tees, Middlesbrough, Darlington and the surrounding areas since 1981, Nuffield Health Tees Hospital has established itself as a leading not-for-profit healthcare provider in the region.

Specialist areas of treatment at our state-of-the-art facilities include cosmetic surgery, eye care and orthopaedics delivered by its expert consultants and supported by its team of matron-led nurses, who provide patients with end-to-end care and support throughout the procedure and any aftercare they may require.

Knee replacement surgery, in particular, is increasingly becoming

a common procedure with tens of thousands of operations taking place each year. At Nuffield Health Tees Hospital, its specialist consultants are able to meet with patients within seven days of their enquiry for an initial appointment, with the capability of performing a full knee replacement within three to four weeks.

One of Nuffield's specialists, Mr Anwar Jafri, a Consultant in Lower Limb (Hip & Knee) Replacement and Trauma, who specialises in Orthopaedics and Joint Replacement, has extensive experience in carrying out knee replacement procedures.

He recently transformed the life

of a Darlington woman, whose quality of life was suffering, after performing two total knee replacement surgeries. Following the treatment and her recovery, she was able to hike a trail on Shenandoah Mountain, in the USA.

She said: "It really has given me a new lease of life, as my legs are now straight for the first time in years."

Mr Jafri will be hosting a free open event, which will give people the opportunity to find out more from Nuffield's knee and hip specialists. It will take place at the hospital on Thursday 9th June at 6.30pm-8pm.

For more information about Nuffield Health Tees Hospital's treatment options and its calendar of open events, contact tees.enquiries@nuffieldhealth.com or (01642) 924256, or you can visit <http://www.nuffieldhealth.com/hospitals/tees>

Get back to the life you love.

Private hospital treatment that you can pay for yourself, without the wait.

Come to a FREE open event.

A great way to find out more without committing to a full consultation
